(1) As set forth in the Offer to Purchase, an early tender premium of \$30 per \$1,000 principal amount of notes that are tendered and accepted for purchase in the tender offer (the "Early Tender Premium") will be paid to holders of notes that are validly tendered and not validly withdrawn on or before the early tender date.

(2) The maximum principal amount of 4.150% Notes that the Company will accept for purchase pursuant to the tender offer is \$350,000,000 (the "4.150% Note Cap").

(3) The maximum principal amount of 3.950% Notes that the Company will accept for purchase pursuant to the tender offer is \$525,000,000 (the "3.950% Note Cap" and, together with the 4.150% Note Cap, the "Note Caps").

Subject to the Tender Cap, validly tendered notes will be accepted for purchase in the order of the acceptance priority levels set forth in the table above, except that the aggregate principal amount of the 4.150% Notes accepted will not exceed the 4.150% Note Cap and the aggregate principal amount of 3.950% Notes accepted will not exceed the 3.950% Note Cap. Lilly reserves the right, but is not obligated, to increase the Tender Cap or any of the Note Caps. Tenders of the 2.350% Notes, the 2.750% Notes, the 5.500% Notes, the 3.100% Notes, the 3.375% Notes, the 5.950% Notes, the 5.550% Notes, the 3.875% Notes, the 4.650% Notes, the 3.700% Notes, the 3.950% Notes due 2047, the 3.950% Notes and the 4.150% Notes will be accepted only in principal amounts equal to \$2,000 and integral multiples of \$1,000 in excess thereof. Tenders of the 7.125% Notes and the 6.770% Notes will be accepted only in principal amounts equal to \$1,000 and integral multiples of \$1,000 thereof.

The total consideration for each \$1,000 principal amount of notes tendered and accepted for payment by Lilly pursuant to the tender offer will be determined in the manner described in the Offer to Purchase by reference to a fixed spread specified in the table above for each series of the notes and the applicable reference yield based on the bid-side price of the applicable U.S. Treasury Security specified in the table above, as calculated by

the dealer managers for the tender offer at 10:00 a.m., New York City time, on September 21, 2021. Holders of notes who validly tender their notes after the early tender date will, if such notes are accepted for purchase by Lilly, receive the tender consideration, which is equal to the total consideration minus the applicable Early Tender Premium. Accrued and unpaid interest up to, but excluding, the applicable settlement date will be paid in cash on all validly tendered notes accepted and purchased by Lilly in the tender offer.

Lilly reserves the right, but is under no obligation, at any point following the early tender date and before the expiration date of the tender offer, to accept for purchase any notes validly tendered at or prior to the early tender date. The early settlement date will be determined at Lilly's option and is currently expected to occur on September 22, 2021, assuming the early tender date is not extended. Irrespective of whether Lilly chooses to exercise its option to have an early settlement of the tender offer, Lilly will purchase any remaining notes that have been validly tendered by the expiration date of the tender offer and accepted for purchase (subject to the Tender Cap, the Note Caps, and the application of the acceptance priority levels), promptly following the expiration date of the tender offer.

All notes validly tendered and not validly withdrawn on or before the early tender date having a higher acceptance priority level will be accepted for purchase (subject to the Tender Cap and the Note Caps) before any validly tendered notes having a lower acceptance priority level are accepted for purchase, and all notes validly tendered after the early tender date having a higher acceptance priority level will be accepted for purchase (subject to the Tender Cap and the Note Caps) before any notes tendered after the early tender date having a lower acceptance priority level are accepted for purchase. **However, priority will be given to accept for purchase notes validly tendered and not validly withdrawn on or before the early tender date (subject to the Tender Cap and the Note Caps) ahead of other notes tendered after the early tender date, even if such notes tendered after the early tender date have a higher acceptance priority level than notes validly tendered and not validly withdrawn prior to the early tender date.**

Notes accepted for purchase in accordance with the terms and conditions of the tender offer may be subject to proration (rounded down to avoid the purchase of notes in a principal amount other than in integral multiples of \$1,000), so that Lilly will only accept for purchase notes in an aggregate principal amount up to the Tender Cap, including the maximum amount of 4.150% Notes that may be purchased pursuant to the 4.150% Note Cap and the maximum amount of 3.950% Notes that may be purchased pursuant to the 3.950% Note Cap. If purchasing all of the tendered notes of a series of notes of an applicable acceptance priority level on any settlement date would cause the Tender Cap or, a Note Cap, if applicable, to be exceeded, the amount of that series of notes purchased on that settlement date will be prorated based on the aggregate principal amount of that series of notes tendered in respect of that settlement date such that the Tender Cap and the Note Caps will not be exceeded. **Furthermore, if the tender offer is fully subscribed as of the early tender date, holders who validly tender notes after the early tender date will not have their notes accepted for purchase.**

The offer for each series of notes is conditioned upon the satisfaction or waiver by Lilly of certain conditions, including the completion of an offering of debt securities by Lilly on terms and conditions satisfactory to Lilly that results in the receipt of net proceeds that, when taken together with cash on hand, is sufficient to pay the consideration for all tendered notes validly tendered (and not validly withdrawn) and accepted for purchase by Lilly, plus related accrued and unpaid interest and fees and expenses.

The offer is not conditioned on the tender or purchase of a minimum principal amount of notes being tendered or on any series of notes being tendered. The offer with respect to one or more series of the notes may be amended, extended, terminated or withdrawn separately.
