

Lilly to Acquire POINT Biopharma to Expand Oncology Capabilities into Next-Generation Radioligand Therapies

October 3, 2023

INDIANAPOLIS, Oct. 3, 2023 /PRNewswire/ -- Eli Lilly and Company (NYSE: LLY) and POINT Biopharma Global, Inc. (NASDAQ: PNT) today announced a definitive agreement for Lilly to acquire POINT, a radiopharmaceutical company with a pipeline of clinical and preclinical-stage radioligand therapies in development for the treatment of cancer. Radioligand therapy can enable the precise targeting of cancer by linking a radioisotope to a targeting molecule that delivers radiation directly to cancer cells, enabling significant anti-tumor efficacy while limiting the impact to healthy tissue.

POINT's lead programs are in late-phase development. PNT2002¹ is a prostate-specific membrane antigen (PSMA) targeted radioligand therapy in development for patients with metastatic castration-resistant prostate cancer (mCRPC) after progression on hormonal treatment. Topline data from this study are expected in the fourth quarter of 2023. PNT2003¹ is a somatostatin receptor (SSTR) targeted radioligand therapy in development for the treatment of patients with gastroenteropancreatic neuroendocrine tumors (GEP-NETs). Beyond the late-stage clinical pipeline, POINT has several additional programs in earlier stages of clinical and preclinical development. Additionally, POINT operates a 180,000-square-foot radiopharmaceutical manufacturing campus in Indianapolis, as well as a radiopharmaceutical research and development center in Toronto. These facilities will be utilized alongside POINT's extensive network of supply chain partners for sourcing radioisotopes and their precursors.

"Over the past few years, we have seen how well-designed radiopharmaceuticals can demonstrate meaningful results for patients with cancer and rapidly integrate into standards of care, yet the field remains in the early days of the impact it may ultimately deliver," said Jacob Van Naarden, President of Loxo@Lilly, the oncology unit of Eli Lilly and Company. "We are excited by the potential of this emerging modality and see the acquisition of POINT as the beginning of our investment in developing multiple meaningful radioligand medicines for hard-to-treat cancers, as we have done in small molecule and biologic oncology drug discovery and development. We look forward to welcoming POINT colleagues to Lilly and working together to build upon their achievements as we develop a pipeline of meaningful new radioligand treatments for patients."

Joe McCann, Ph.D., CEO of POINT added: "The combination of POINT's team, infrastructure and capabilities with Lilly's global resources and experience could significantly accelerate the discovery, development and global access to radiopharmaceuticals. I look forward to a future where patients all over the world can benefit from the new cancer treatment options made possible by the joining of our two companies today."

Terms of the Agreement

Lilly will commence a tender offer to acquire all outstanding shares of POINT for a purchase price of \$12.50 per share in cash (an aggregate of approximately \$1.4 billion) payable at closing. The transaction has been approved by the boards of directors of both companies.

The transaction is not subject to any financing condition and is expected to close near the end of 2023, subject to customary closing conditions, including the tender of a majority of the outstanding shares of POINT's common stock, and license transfer approval from the U.S. Nuclear Regulatory Commission. Following the successful closing of the tender offer, Lilly will acquire any shares of POINT that are not tendered in the tender offer through a second-step merger at the same consideration as paid in the tender offer.

The purchase price payable at closing represents a premium of approximately 87% to POINT's closing stock price on Oct. 2, 2023, the last trading day before the announcement of the transaction, and 68% to the 30-day volume-weighted average price. POINT's board of directors unanimously recommends that POINT's stockholders tender their shares in the tender offer.

Lilly will determine the accounting treatment of this transaction as a business combination or an asset acquisition, including any related acquired in-process research and development charges, according to Generally Accepted Accounting Principles (GAAP) upon closing. This transaction will thereafter be reflected in Lilly's financial results and financial guidance.

For Lilly, Goldman Sachs & Co. LLC is acting as exclusive financial advisor and Kirkland & Ellis LLP is acting as legal counsel. For POINT, Centerview Partners LLC is acting as exclusive financial advisor and Skadden, Arps, Slate, Meagher & Flom LLP is acting as legal counsel.
