

Prospectus supplement

(To prospectus dated April 20, 2000)

Eli Lilly and Company

\$500,000,000

6.00% Notes due 2012

Interest payable March 15 and September 15

Issue price: 99.726%

The notes will mature on March 15, 2012. Interest accrues from March 18, 2002. We may redeem some or all of the notes at any time at the prices described under the heading “Description of the Notes— Optional Redemption.”

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of the notes or determined that this prospectus supplement or the accompanying prospectus is accurate or complete. Any representation to the contrary is a criminal offense.

	Price to Public(1)	Underwriting Discounts	Proceeds to Us(1)
Per note	99.726%	0.450%	99.276%
Total	\$498,630,000	\$2,250,000	\$496,380,000

(1) Plus accrued interest from March 18, 2002.

The notes are not and will not be listed on any securities exchange.

The underwriters expect to deliver the notes to investors through the book-entry delivery system of The Depository Trust Company on or about March 18, 2002.

ABOUT THIS PROSPECTUS SUPPLEMENT

This prospectus supplement contains the terms of this offering of notes. This prospectus supplement, or the information incorporated by reference in this prospectus supplement, may add, update or change information in the accompanying prospectus. If information in this prospectus supplement, or the information incorporated by reference in this prospectus supplement, is inconsistent with the accompanying prospectus, this prospectus supplement, or the information incorporated by reference in this prospectus supplement, will apply and will supercede that information in the accompanying prospectus.

It is important for you to read and consider all information contained in this prospectus supplement and the accompanying prospectus in making your investment decision. You should also read and consider the information in the documents referred to in “Where You Can Find More Information” in the accompanying prospectus.

RATIO OF EARNINGS FROM CONTINUING OPERATIONS TO FIXED CHARGES

Our ratio of earnings from continuing operations to fixed charges for each of the periods indicated is as follows:

	Year ended December 31,				
	2001	2000	1999	1998	1997
Ratio of earnings from continuing operations to fixed charges	17.8	17.9	16.1	14.2	12.2

The ratio of earnings from continuing operations to fixed charges represents our historical ratio and is calculated on a consolidated basis. This ratio is calculated as follows:

income from continuing operations before taxes and extraordinary item	+	fixed charges excluding capitalized interest and preferred stock dividends
fixed charges		

Fixed charges include interest from continuing operations for all years presented and preferred stock dividends for 1997 through 1999.

USE OF PROCEEDS

We expect to use the net proceeds from the sale of the notes (estimated at \$496,380,000 before deducting estimated expenses of this offering) for general corporate purposes. We may temporarily invest funds that we do not immediately need in marketable securities and short-term investments.

DESCRIPTION OF THE NOTES

The following summary describes the particular terms of the notes offered by this prospectus supplement. It supplements the description of the general terms and provisions of the debt securities included in the attached prospectus. The notes will be issued under an indenture, dated as of February 1, 1991, between us and Citibank, N.A., as trustee. The following summary of the notes is qualified in its entirety by reference to the description of the debt securities and indenture contained in the accompanying prospectus.

General

The notes will mature on March 15, 2012. The notes will be our unsecured and unsubordinated obligations and will rank equally with all of our other unsecured and unsubordinated indebtedness. The notes will be issued in fully registered form only, in denominations of \$1,000 and integral multiples of that amount.

We may, without the consent of the holders of notes, issue additional notes having the same ranking and the same interest rate, maturity and other terms as the notes. Any additional debt securities having such similar terms, together with the notes, will constitute a single series of debt securities under the indenture.

We will pay interest on the notes at a rate of 6.00% per annum semi-annually in arrears on March 15 and September 15 of each year, commencing September 15, 2002, to the persons in whose names the notes are registered at the close of business on the last day of February or August, as the case may be (whether or not a business day), immediately preceding the relevant

interest payment date. Interest will be computed on the basis of a 360-day year of twelve 30-day months.

If any interest payment date falls on a day that is not a business day, the interest payment will be postponed to the next day that is a business day, and no interest on such payment will accrue for the period from and after such interest payment date. Similarly, if the maturity date of the notes falls on a day that is not a business day, the payment of interest and principal may be made on the next succeeding business day, and no interest on such payment will accrue for the period from and after the maturity date. Interest payments for the notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to, but excluding, the interest payment date or the date of maturity, as the case may be.

As used in this prospectus supplement, “business day” means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which banking institutions are authorized or required by law or regulation to close in The City of New York.

Optional redemption

At our option, we may redeem the notes, in whole or in part, at any time or from time to time. The redemption price will be equal to the greater of the following amounts:

- 100% of the principal amount of the notes being redeemed on the redemption date; and
- the sum of the present values of the remaining scheduled payments of principal and interest on the notes being redeemed on that redemption date (not including the amount, if any, of accrued and unpaid interest to the redemption date) discounted to the redemption date on a semiannual basis at the Treasury Rate (as defined below), as determined by the Reference Treasury Dealer (as defined below), plus 12.5 basis points;

plus, in each case, accrued and unpaid interest on the notes to the redemption date.

Notwithstanding the foregoing, installments of interest on notes that are due and payable on interest payment dates falling on or prior to a redemption date will be payable on the interest payment date to the registered holders as of the close of business on the relevant record date according to the notes and the indenture. The redemption price will be calculated on the basis of a 360-day year consisting of twelve 30-day months.

We will mail notice of any redemption at least 30 days but not more than 60 days before the redemption date to each registered holder of the notes to be redeemed. Once notice of redemption is mailed, the notes called for redemption will become due and payable on the redemption date at the applicable redemption price, plus accrued and unpaid interest to the redemption date.

“Treasury Rate” means, with respect to any redemption date, the rate per annum equal to the semiannual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for such redemption date.

“Comparable Treasury Issue” means the United States Treasury security selected by the Reference Treasury Dealer as having a maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

[Table of Contents](#)

“Comparable Treasury Price” means, with respect to any redemption date, (A) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (B) if the trustee obtains fewer than three such Reference Treasury Dealer Quotations, the average of all such Quotations, or (C) if only one Reference Treasury Dealer Quotation is received, such Quotation.

“Reference Treasury Dealer” means (A) Goldman, Sachs & Co. and J.P. Morgan Securities Inc. (or their respective affiliates which are Primary Treasury Dealers), and their respective successors; *provided, however*, that if any of the foregoing shall cease to be a primary U.S. Government securities dealer in New York City (a “Primary Treasury Dealer”), we will substitute therefor another Primary Treasury Dealer; and (B) any other Primary Treasury Dealer(s) selected by us.

“Reference Treasury Dealer Quotation” means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the trustee, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the trustee by such Reference Treasury Dealer at 5:00 p.m. (New York City time) on the third business day preceding such redemption date.

On and after the redemption date, interest will cease to accrue on the notes or any portion of the notes called for redemption (unless we default in the payment of the redemption price and accrued interest). On or before the redemption date, we will deposit with a paying agent (or the trustee) money sufficient to pay the redemption price of and accrued interest on the notes to be redeemed on that date. If fewer than all of the notes of any series are to be redeemed, the notes to be redeemed shall be selected by lot by DTC, in the case of notes represented by a global security, or by the trustee by a method the trustee deems to be fair and appropriate, in the case of notes that are not represented by a global security.

The notes will not be entitled to the benefit of any mandatory redemption or sinking fund.

Book-entry notes

The Depository Trust Company

Except under the limited circumstances described below, all notes will be book-entry notes. This means that the actual purchasers of the notes will not be entitled to have the notes registered in their names and will not be entitled to receive physical delivery of the notes in definitive (paper) form. Instead, upon issuance, all the notes will be represented by one or more fully registered global notes.

Each global note will be deposited with, or on behalf of, The Depository Trust Company, a securities depository, and will be registered in the name of DTC’s nominee, Cede & Co. No global note representing book-entry notes may be transferred except as a whole by DTC to a nominee of DTC, or by a nominee of DTC to another nominee of DTC. Thus, DTC will be the only registered holder of the notes and will be considered the sole representative of the beneficial owners of the notes for purposes of the indenture.

The registration of the global notes in the name of Cede & Co. will not affect beneficial ownership and is performed merely to facilitate subsequent transfers. The book-entry system, which is also the system through which most publicly traded common stock is held in the United States, is used because it eliminates the need for physical movement of securities certificates. The laws of some jurisdictions, however, may require some purchasers to take physical delivery

of their notes in definitive form. These laws may impair the ability of holders to transfer book-entry notes.

Purchasers of notes in the United States may hold interests in the global notes only through DTC, if they are participants in such system. Purchasers may also hold interests indirectly through securities intermediaries— such as banks, brokerage houses and other institutions that maintain securities accounts for customers— that have accounts with DTC or its nominee (“participants”). Purchasers of notes in Europe can hold interests in the global notes only through Clearstream Banking, société anonyme, or through Euroclear Bank S.A./N.V., as operator of the Euroclear System, if they are participants in these systems or indirectly through organizations that are participants in these systems.

Because DTC will be the only registered owner of the global notes, Clearstream and Euroclear will hold positions through their respective U.S. depositories, which in turn will hold positions on the books of DTC. The trustee will act as U.S. depository for Clearstream, and The Chase Manhattan Bank will act as U.S. depository for Euroclear. For information on how accounts of ownership of notes held through DTC are recorded, please refer to “Description of Debt Securities— Global Securities” in the accompanying prospectus.

None of we, the trustee or any of our or their agents will be liable for the accuracy of, or responsible for maintaining, supervising or reviewing, DTC’s records or any participant’s records relating to book-entry notes. In addition, none of we, the trustee or any of our or their agents will be responsible or liable for payments made on account of the book-entry notes.

In this prospectus supplement, unless and until definitive (certificated) notes are issued to the beneficial owners as described below, all references to “holders” of notes shall mean DTC or its nominee. We, the trustee and any paying agent, transfer agent or registrar may treat DTC as the absolute owner of the notes for all purposes.

We will make all distributions of principal and interest on our notes to DTC. We will send all required reports and notices solely to DTC as long as DTC is the registered holder of the notes. DTC and its participants are generally required by law to receive and transmit all distributions, notices and directions from us and the trustee to the beneficial owners through a chain of intermediaries. Purchasers of the notes will not receive written confirmation from DTC of their purchases. However, beneficial owners of book-entry notes are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the participants or indirect participants through which they entered into the transaction.

Similarly, we and the trustee will accept notices and directions solely from DTC. Therefore, in order to exercise any rights of a holder of notes under the indenture, each person owning a beneficial interest in the notes must rely on the procedures of DTC and, in some cases, Clearstream or Euroclear. If the beneficial owner is not a participant in the applicable system, then it must rely on the procedures of the participant through which that person owns its interest. DTC has advised us that it will take actions under the indenture only at the direction of its participants, which in turn will act only at the direction of the beneficial owners. Some of these actions, however, may conflict with actions DTC takes at the direction of other participants and beneficial owners.

Notices and other communications by DTC to participants, by participants to indirect participants, and by participants and indirect participants to beneficial owners will be governed by arrangements among them.

Book-entry notes may be more difficult to pledge because of the lack of physical note. Beneficial owners may experience delays in receiving distributions on their notes since distributions will initially be made to DTC and must then be transferred through the chain of intermediaries to the beneficial owner's account.

DTC has advised us as follows: DTC is a limited purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants deposit with it. DTC also facilitates the settlement among its participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in its participants' accounts, thereby eliminating the need for physical movement of securities certificates. DTC's participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. Access to the DTC system is also available to others such as securities brokers and dealers, banks, and trust companies that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to DTC and its participants are on file with the Securities and Exchange Commission.

Clearstream Banking, société anonyme

Clearstream Banking, société anonyme, was incorporated as a limited liability company under Luxembourg law. Clearstream is owned by Cedel International, société anonyme, and Deutsche Borse AG. The shareholders of these two entities are banks, securities dealers and financial institutions.

Clearstream holds securities for its customers and facilitates the clearance and settlement of securities transactions between Clearstream customers through electronic book-entry changes in accounts of Clearstream customers, thus eliminating the need for physical movement of certificates. Clearstream provides to its customers, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream interfaces with domestic markets in a number of countries. Clearstream has established an electronic bridge with Euroclear Bank S.A./N.V., the operator of the Euroclear System, to facilitate settlement of trades between Clearstream and Euroclear.

As a registered bank in Luxembourg, Clearstream is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector. Clearstream customers are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies and clearing corporations. In the United States, Clearstream customers are limited to securities brokers and dealers and banks. Clearstream customers may include the underwriters. Other institutions that maintain a custodial relationship with a Clearstream customer may obtain indirect access to Clearstream. Clearstream is an indirect participant in DTC.

Distributions with respect to the notes held beneficially through Clearstream will be credited to cash accounts of Clearstream customers in accordance with its rules and procedures, to the extent received by Clearstream.

The Euroclear System

The Euroclear System was created in 1968 to hold securities for participants of the Euroclear System and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thus eliminating the need for physical movement of certificates and risk from lack of simultaneous transfers of securities and cash. Transactions may now be settled in many currencies, including United States dollars and Japanese yen. The Euroclear System provides various other services, including securities lending and borrowing and interfaces with domestic markets in several countries generally similar to the arrangements for cross-market transfers with DTC described below.

The Euroclear System is operated by Euroclear Bank S.A./N.V. (the “Euroclear Operator”), under contract with Euroclear Clearance System, S.C., a Belgian cooperative corporation (the “Cooperative”). The Euroclear Operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator, not the Cooperative. The Cooperative establishes policy for the Euroclear System on behalf of Euroclear participants. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to the Euroclear System is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly. Euroclear is an indirect participant in DTC.

The Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System and applicable Belgian law govern securities clearance accounts and cash accounts with the Euroclear Operator. Specifically, these terms and conditions govern:

- transfers of securities and cash within the Euroclear System,
- withdrawal of securities and cash from the Euroclear System and
- receipts of payments with respect to securities in the Euroclear System.

All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the terms and conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding securities through Euroclear participants.

Distributions with respect to notes held beneficially through Euroclear will be credited to the cash accounts of Euroclear participants in accordance with the Euroclear Terms and Conditions, to the extent received by the Euroclear Operator and by Euroclear.

The foregoing information about DTC, Clearstream and Euroclear has been provided by each of them for information purposes only and is not intended to serve as a representation, warranty, or contract modification of any kind.

Global clearance and settlement procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants will occur in the ordinary way, in accordance with DTC’s rules, and will be settled in immediately available funds using DTC’s same-day funds settlement system. Secondary market trading between Clearstream participants and/or Euroclear participants will occur in the ordinary way, in accordance with the applicable rules and operating procedures of Clearstream and Euroclear, and will be settled using the procedures applicable to conventional eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through DTC, on the one hand, and directly or indirectly through Clearstream or Euroclear participants, on the other, will be effected through DTC, in accordance with DTC's rules, on behalf of the relevant European international clearing system by the U.S. depositaries. However, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in this system in accordance with its rules and procedures and within its established deadlines, European time. The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depository to take action to effect final settlement on its behalf by delivering or receiving notes in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream participants and Euroclear participants may not deliver instructions directly to DTC.

Because of time-zone differences, credits of notes received in Clearstream or Euroclear as a result of a transaction with a DTC participant will be made during subsequent securities settlement processing and will be credited the business day following the DTC settlement date. These credits or any transactions in such notes settled during such processing will be reported to the relevant Euroclear or Clearstream participants on that business day. Cash received in Clearstream or Euroclear as a result of sales of notes by or through a Clearstream participant or a Euroclear participant to a DTC participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of notes among participants of DTC, Clearstream and Euroclear, they are under no obligation to perform or continue to perform these procedures, and these procedures may be discontinued at any time.

Distributions on book-entry notes

We will make all distributions of principal of and interest on book-entry notes to DTC. Upon receipt of any payment of principal or interest, DTC will immediately credit the accounts of its participants on its book-entry registration and transfer system. DTC will credit those accounts in proportion to the participants' respective beneficial interests in the principal amount of the global note as shown on the records of DTC. Payments by participants to beneficial owners of book-entry notes will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants.

Distributions on book-entry notes held beneficially through Clearstream will be credited to Clearstream participants, in accordance with Clearstream's rules and procedures, to the extent received by its U.S. depository.

Distributions on book-entry notes held beneficially through Euroclear will be credited to Euroclear participants, in accordance with the Euroclear Terms and Conditions, to the extent received by its U.S. depository.

Definitive notes and paying agents

If any of the events described under "Description of Debt Securities— Global Securities" of the accompanying prospectus occurs, then the beneficial owners will be notified through the chain of intermediaries that definitive notes are available and notice will be published as described below

under “—Notices.” Beneficial owners of book-entry notes will then be entitled (1) to receive physical delivery in certificated form of definitive notes equal in principal amount to their beneficial interest and (2) to have the definitive notes registered in their names. The definitive notes will be issued in denominations of \$1,000 and whole multiples of \$1,000 in excess of that amount. Definitive notes will be registered in the name or names of the person or persons DTC specifies in a written instruction to the registrar of the notes. DTC may base its written instruction upon directions it receives from its participants. Thereafter, the holders of the definitive notes will be recognized as the “holders” of the notes under the indenture.

The indenture provides for the replacement of a mutilated, lost, stolen or destroyed definitive note, so long as the applicant furnishes to us and the trustee such securities or indemnity and such evidence of ownership as we and the trustee may require.

In the event definitive notes are issued, the holders of definitive notes will be able to receive payments of principal of and interest on their notes at the office of our paying agent maintained in the Borough of Manhattan, The City of New York. Payment of principal of a definitive note may be made only against surrender of the note to one of our paying agents. We have the option, however, of making payments of interest by mailing checks to the address of the holder appearing in the register of note holders maintained by the registrar.

Our payment agent in the Borough of Manhattan is currently the corporate trust office of Citibank, N.A., currently located at 111 Wall Street, 14th Floor, Zone 3, New York, New York 10043.

In the event definitive notes are issued, the holders of definitive notes will be able to transfer their notes, in whole or in part, by surrendering the notes for registration of transfer at the office of Citibank, N.A., duly endorsed by or accompanied by a written instrument of transfer in form satisfactory to us and the securities registrar. A form of such instrument of transfer will be obtainable at the offices of Citibank, N.A. Upon surrender, we will execute, and the trustee will authenticate and deliver, new notes to the designated transferee in the amount being transferred, and a new note for any amount not being transferred will be issued to the transferor. We will not charge any fee for the registration of transfer or exchange, except that we may require the payment of a sum sufficient to cover any applicable tax or other governmental charge payable in connection with the transfer.

U.S. FEDERAL TAX CONSIDERATIONS

The following is a general discussion of the material U.S. federal tax consequences of the acquisition, ownership and disposition of notes. This discussion is based on current provisions of the Internal Revenue Code of 1986, as amended (the “Code”), Treasury regulations thereunder, and administrative and judicial interpretations thereof, all as in effect on the date hereof and all of which are subject to change, possibly on a retroactive basis.

This discussion applies only to initial holders that purchase notes upon original issuance at the initial offering price and that hold notes as capital assets. This discussion is for general information only and does not address all of the U.S. federal income tax consequences that may be important to particular holders in light of their individual circumstances. Such holders may include banks and other financial institutions, partnerships or other entities classified as partnerships for U.S. federal income tax purposes, insurance companies, tax-exempt entities, dealers in securities, certain former citizens or former long-term residents of the United States, persons holding the notes as part of a hedging or conversion transaction or a straddle or

U.S. Holders that have a functional currency other than the U.S. dollar. As used herein, the term “U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes, a citizen or resident of the United States, a corporation created or organized under the laws of the United States or any State thereof, including the District of Columbia, or an estate or trust that is a United States person as defined in the Code. As used herein, the term “Non-U.S. Holder” means a beneficial owner of a note that is, for U.S. federal income tax purposes, an individual who is classified as a nonresident alien for U.S. federal income tax purposes, a foreign corporation, or a nonresident alien fiduciary of a foreign estate or trust. This discussion does not specifically address the tax consequences to Non-U.S. Holders that are or would be subject to U.S. federal income tax on a net basis on income realized with respect to a note because such income is effectively connected with the conduct of a U.S. trade or business. In addition, this discussion does not include any description of the tax laws of any state, local or foreign government that may be applicable to a particular beneficial owner.

Prospective purchasers are urged to consult their own tax advisors as to the particular U.S. federal income and other tax consequences to them of the acquisition, ownership and disposition of the notes as well as any tax consequences under state, local and foreign tax laws, and the possible effects of changes in tax laws.

Federal income taxation of U.S. Holders

In general, interest on a note will be taxable to a U.S. Holder as ordinary income at the time it accrues or is actually or constructively received in accordance with the U.S. Holder’s method of accounting for federal income tax purposes. Upon the sale, exchange, redemption, retirement at maturity or other taxable disposition of a note, a U.S. Holder generally will recognize taxable gain or loss equal to the difference between (1) the sum of cash and the fair market value of other property received on such disposition, except to the extent such cash or property is attributable to accrued but unpaid interest not previously included in income, which will be taxable as ordinary income, and (2) such U.S. Holder’s adjusted tax basis in the note. Such gain or loss generally will be capital gain or loss, and will be long-term capital gain or loss if the notes were held for more than one year on the date of such sale, exchange, redemption, retirement or other disposition.

Non-corporate U.S. Holders will generally be required to supply a social security number or other taxpayer identification number along with certain certifications under penalties of perjury in order to avoid backup withholding with respect to interest paid on a note and the proceeds of a sale of a note. In addition, such payments will generally be subject to information reporting. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against such U.S. Holder’s federal income tax liability and may entitle such U.S. Holder to a refund, provided that the required information is furnished to the Internal Revenue Service.

Federal taxation of Non-U.S. Holders

General

Payments of interest on notes to a Non-U.S. Holder will not be subject to federal income or withholding tax, except as described below under “Backup Withholding and Information Reporting,” provided that (a) the Non-U.S. Holder does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote, (b) the Non-U.S. Holder is not a “controlled foreign corporation” that is related to us, through stock ownership, (c) the Non-U.S. Holder is not a bank receiving interest on an extension of credit

made pursuant to a loan agreement entered into in ordinary course of its trade or business, and (d) either (i) the Non-U.S. Holder certifies under penalties of perjury on IRS Form W-8BEN or a suitable substitute form that it is not a “U.S. person,” as defined in the Code, and provides its name and address, or (ii) a securities clearing organization, bank or other financial institution that holds customers’ securities in the ordinary course of its trade or business and holds the notes on behalf of the Non-U.S. Holder certifies under penalties of perjury that such a statement has been received from the Non-U.S. Holder and furnishes a copy thereof. In the case of notes held by a foreign partnership, certifications must also be provided by the partners rather than the partnership. If interest paid on the notes is not eligible for the exemption from withholding described earlier in this paragraph, a Non-U.S. Holder may be entitled to the benefits of an income tax treaty under which interest on notes would be subject to a reduced rate of or exemption from withholding tax, provided a properly executed IRS Form W-8BEN is furnished to the withholding agent.

A Non-U.S. Holder generally will not be subject to U.S. income or withholding tax, except as described below under “Backup Withholding and Information Reporting,” with respect to gain realized on the sale, exchange, redemption, retirement at maturity or other disposition of a note unless the Non-U.S. Holder is an individual who is present in the United States for a period or periods aggregating 183 or more days in the taxable year of disposition and certain other conditions are met.

Notes held at the time of death by an individual who is not a citizen or resident of the United States will not be included in such holder’s gross estate for U.S. federal estate tax purposes, provided that the individual does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote and income on the notes is not effectively connected with the conduct of a trade or business in the United States.

Backup withholding and information reporting

Backup withholding will not apply to payments made by us or a paying agent to a Non-U.S. Holder if the certification described above is received. Backup withholding generally will not apply to payments on a note made to a Non-U.S. Holder by or through the foreign office of a custodian, nominee or other agent of such Non-U.S. Holder, or if a foreign office of a broker pays the proceeds of the sale of a note. Information reporting will apply, however, to a payment by or through a foreign office of a custodian, nominee, agent or broker that is, for U.S. federal income tax purposes, a U.S. person, a “controlled foreign corporation”, a foreign partnership that at any time during its taxable year is owned by one or more U.S. persons who, in the aggregate hold more than 50% of the income or capital interest in the partnership, or a foreign person that has certain connections with the United States, unless such custodian, nominee, agent or broker has documentary evidence in its records that the holder is a non-U.S. person and certain other conditions are met, or the holder otherwise establishes an exemption. Payment by a U.S. office of a custodian, nominee, agent or broker is subject to both backup withholding and information reporting unless the holder certifies under penalties of perjury that it is not a U.S. person and the payor does not have actual knowledge to the contrary or the holder otherwise establishes an exemption. A Non-U.S. Holder may obtain a refund or a credit against such Non-U.S. Holder’s U.S. federal income tax liability of any amounts withheld under the backup withholding rules, provided the required information is furnished to the IRS.

UNDERWRITING

Goldman, Sachs & Co. and J.P. Morgan Securities Inc. are acting as representatives of the underwriters named below.

Subject to the terms and conditions stated in the underwriting agreement dated the date of this prospectus supplement, each underwriter named below has severally agreed to purchase, and we have agreed to sell to that underwriter, the principal amount of notes set forth opposite the underwriter's name.

Underwriter	Principal amount of notes
Goldman, Sachs & Co.	\$200,000,000
J.P. Morgan Securities Inc.	200,000,000
Deutsche Banc Alex. Brown Inc.	25,000,000
Merrill Lynch, Pierce, Fenner & Smith Incorporated	25,000,000
Salomon Smith Barney Inc.	25,000,000
UBS Warburg LLC	25,000,000
Total	\$500,000,000

The underwriting agreement provides that obligations of the underwriters to purchase the notes included in this offering are subject to approval of legal matters by counsel and to other conditions. The underwriters are obligated to purchase all the notes if they purchase any of the notes.

The underwriters may offer some of the notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the notes to dealers at the public offering price less a concession not to exceed 0.300% of the principal amount of the notes. The underwriters may allow, and dealers may reallow a concession not to exceed 0.250% of the principal amount of the notes on sales to other dealers. After the initial offering of the notes to the public, the representatives may change the public offering price and concession.

The following table shows the underwriting discounts and commissions that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	Paid by Eli Lilly and Company
Per note	0.450%

In connection with the offering, Goldman, Sachs & Co. and J.P. Morgan Securities Inc., on behalf of the underwriters, may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of notes in excess of the principal amount of notes to be purchased by the underwriters in the offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

J.P. Morgan Securities Inc. will make the securities available for distribution on the Internet through a proprietary Web site and/or a third-party system operated by Market Axess Inc., an Internet-based communications technology provider. Market Axess Inc. is providing the system

Table of Contents

as a conduit for communications between J.P. Morgan Securities Inc. and its customers and is not a party to any transactions. Market Axess Inc., a registered broker-dealer, will receive compensation from J.P. Morgan Securities Inc. based on transactions J.P. Morgan Securities Inc. conducts through the system. J.P. Morgan Securities Inc. will make the securities available to its customers through the Internet distributions, whether made through a proprietary or third-party system, on the same terms as distributions made through other channels.

A prospectus in electronic format also may be made available on the web sites maintained by other underwriters in this offering. The underwriters may agree to allocate a number of shares to such underwriters for sale to their online brokerage account holders. Internet distributions will be allocated by Goldman, Sachs & Co. and J.P. Morgan Securities Inc. to the underwriters that may make Internet distributions on the same basis as other allocations.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Goldman, Sachs & Co. and J.P. Morgan Securities Inc., in covering syndicate short positions or making stabilizing purchases, repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our expenses for this offering will be \$100,000.

In the ordinary course of their respective businesses, the underwriters and their affiliates have engaged and may in the future engage in investment and commercial banking transactions with us and our affiliates. J.P. Morgan Securities Inc. is an affiliate of The Chase Manhattan Bank, which is one of our lenders. Citibank N.A., the trustee under the indenture under which the notes will be issued, is an affiliate of Salomon Smith Barney Inc.

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act of 1933, or to contribute to payments the underwriters may be required to make because of any of those liabilities.

LEGAL MATTERS

The validity of the notes will be passed upon for us by Dewey Ballantine LLP, New York, New York. Davis Polk & Wardwell, New York, New York, will pass on the validity of the notes and various other matters for the underwriters. Dewey Ballantine LLP and Davis Polk & Wardwell will rely on the opinion of James B. Lootens, our Assistant Secretary and Associate General Counsel, with respect to all matters of Indiana law. As of March 13, 2002, James B. Lootens owned 11,823 shares of our common stock and had the right to acquire an additional 40,125 shares.

EXPERTS

Ernst & Young LLP, independent auditors, have audited our consolidated financial statements included in our current report on Form 8-K dated March 13, 2002, as set forth in their report, which is incorporated by reference in the prospectus attached to this prospectus supplement. Our financial statements are incorporated by reference in reliance on Ernst & Young LLP's report, given on their authority as experts in accounting and auditing.

Eli Lilly and Company

Debt Securities

**You should read the prospectus supplement
and this prospectus carefully before you invest.**

This prospectus describes the debt securities that we may issue and sell at various times:

- our prospectus supplements will contain the specific terms of each series.
 - we can issue debt securities with a total offering price of up to \$2,000,000,000 under this prospectus.
 - we may sell the debt securities to or through underwriters, dealers or agents. We may also sell debt securities directly to purchasers.
-

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved of these securities or passed upon the adequacy or accuracy of this prospectus. Any representation to the contrary is a criminal offense.

The date of this prospectus is April 20, 2000

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we filed with the Securities and Exchange Commission (“SEC”) using a “shelf” registration process. Under this shelf process, we may, from time to time, sell any combination of debt securities described in this prospectus in one or more offerings up to a total dollar amount of \$2,000,000,000. This prospectus provides you with a general description of the debt securities we may offer. Each time we sell any of the debt securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. You should read this prospectus and the applicable prospectus supplement together with the additional information described under the heading “Where You Can Find More Information.”

The registration statement that contains this prospectus and the exhibits to the registration statement contain additional information about our company and the debt securities offered under this prospectus. The registration statement and exhibits can be read at the SEC web site or at the SEC offices mentioned under the heading “Where You Can Find More Information.”

ELI LILLY AND COMPANY

We were incorporated in 1901 in Indiana to succeed to the drug manufacturing business founded in Indianapolis, Indiana, in 1876 by Colonel Eli Lilly. We discover, develop, manufacture and sell products in one significant business segment— pharmaceutical products. Operations of our animal health business segment are not material to our financial statements. Our products are manufactured or distributed through owned or leased facilities in the United States, Puerto Rico and 28 other countries. Our products are sold in approximately 160 countries.

Most of the products we sell today were discovered or developed by our own scientists, and our success depends to a great extent on our ability to continue to discover and develop innovative new pharmaceutical products. We direct our research efforts primarily toward the search for products to diagnose, prevent and treat human diseases. We also conduct research to find products to treat diseases in animals and to increase the efficiency of animal food production.

Our corporate offices are located at Lilly Corporate Center, Indianapolis, Indiana 46285, and our telephone number is (317) 276-2000.

WHERE YOU CAN FIND MORE INFORMATION

We file annual, quarterly and special reports, proxy statements and other information with the SEC. Our SEC filings are available to the public over the internet at the SEC's web site at <http://www.sec.gov>. You may also read and copy any document we file with the SEC at its public reference facilities at:

450 Fifth Street, N.W.
Washington, D.C. 20549

7 World Trade Center
Suite 1300
New York, New York 10048

Citicorp Center
500 West Madison Street
Suite 1400
Chicago, Illinois 60661

You may also obtain copies of this information at prescribed rates by writing to the Public Reference Section of the SEC at 450 Fifth Street, N.W., Washington, D.C., 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities.

Our SEC filings are available at the office of the New York Stock Exchange. For further information on obtaining copies of our public filings at the New York Stock Exchange you should call (212) 656-5060. Our SEC filings are also available at the office of the Pacific Exchange. For further information on obtaining copies of our public filings at the Pacific Exchange you should call (415) 393-4000.

The SEC allows us to "incorporate by reference" into this prospectus information which we file with the SEC. This means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is an important part of this prospectus and information that we file later with the SEC will automatically update and supersede the information in this prospectus and in our other filings with the SEC.

We incorporate by reference our annual report on Form 10-K for the year ended December 31, 1999, that we previously filed with the SEC. Our Form 10-K contains important information about our business and our financial performance.

We also incorporate by reference any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 (1) after the date of the filing of the registration statement and (2) until we have sold all of the debt securities to which this prospectus relates or the offering is otherwise terminated. Our future filings with the SEC will automatically update and supersede any inconsistent information in this prospectus.

You may obtain a free copy of these filings from us by telephoning or writing to us at the following address and telephone number:

Shareholder Services Department
Eli Lilly and Company
Lilly Corporate Center
Indianapolis, Indiana 46285
Tel.: (317) 276-2000

You should rely only on the information contained in this document, incorporated by reference into this document or set forth in the applicable prospectus supplement. We have not authorized anyone to give you different information. Therefore, if anyone does provide you with different or inconsistent information, you should not rely on it. We may only use this prospectus to sell debt securities if it is accompanied by a prospectus supplement. We are only offering these debt securities in states where the offer is permitted. The information contained in this prospectus and the applicable prospectus supplement speaks only as of the dates on the front of those documents.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some of the information included and incorporated by reference in this prospectus and other written and oral statements made from time to time by us contain “forward-looking statements” as defined by the Private Securities Litigation Reform Act of 1995. Forward-looking statements include, among other things, discussions concerning our potential exposure to market risks, as well as statements expressing our expectations, beliefs, estimates, forecasts, projections and assumptions about the future. Forward-looking statements can be identified by the use of words such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “could,” “possible,” “plan,” “project,” “will,” “forecast” and similar words or expressions. Forward-looking statements are only predictions. Our forward-looking statements generally relate to our strategies, financial results, product development and regulatory approval programs, and sales efforts. You should carefully consider forward-looking statements and understand that actual events or results may differ materially as a result of a variety of risks and uncertainties, known and unknown, and other factors facing our company. Many of those factors are noted in conjunction with the forward-looking statements in the text. It is not possible to foresee or identify all factors affecting our forward-looking statements; therefore, investors should not consider any list of factors affecting our forward-looking statements to be an exhaustive statement of all risks or uncertainties.

Although we cannot give a comprehensive list of all factors that may cause actual results to differ from our forward-looking statements, the factors include those noted in our SEC filings incorporated by reference into this prospectus, as well as:

- competitive factors, including generic competition as patents on key products, such as Prozac, expire;
- pricing pressures, both in the United States and abroad, primarily from managed care groups and government agencies;
- new patented products or expanded indications for existing products introduced by competitors, which can lead to declining demand for our products;
- changes in inventory levels maintained by pharmaceutical wholesalers, which can cause reported sales for a particular period to differ significantly from underlying prescriber demand;
- economic factors over which we have no control, including changes in inflation, interest rates and foreign currency exchange rates, and overall economic conditions in volatile areas such as Latin America;
- governmental factors, including laws and regulations and judicial decisions at the state and federal level related to Medicare, Medicaid and health care reform that could adversely affect pricing and reimbursement of our products, and laws and regulations affecting international operations;
- the difficulties and uncertainties inherent in new product development, including new products that appear promising during development but fail to reach the market or have only limited commercial success as a result of efficacy or safety concerns, inability to obtain necessary regulatory approvals, difficulty or excessive costs to manufacture or infringement of patents or other intellectual property rights of others;
- delays and uncertainties in the regulatory approval process in the United States and other countries, resulting in lost market opportunity;
- unexpected safety or efficacy concerns with respect to marketed products, whether or not scientifically justified, that may lead to product recalls, withdrawals or declining sales;
- legal factors including unanticipated litigation of product liability claims or other liability claims, environmental matters and patent disputes with competitors which could preclude commercialization of products or negatively affect the profitability of existing products. In particular, while we believe that our U.S. patents on Prozac are valid and enforceable, there can be no assurances that we will prevail in the various legal challenges to those patents;

Table of Contents

- changes in tax laws, including laws related to the remittance of foreign earnings or investments in foreign countries with favorable tax rates, and settlements of federal, state, and foreign tax audits;
- changes in accounting standards promulgated by the Financial Accounting Standards Board, the Securities and Exchange Commission, and the American Institute of Certified Public Accountants which are adverse to us; and
- internal factors such as changes in business strategies and the impact of restructurings and business combinations.

USE OF PROCEEDS

We will use the net proceeds from the sale of the securities for general corporate purposes or for any other purposes described in the applicable prospectus supplement. We may temporarily invest funds that we do not immediately need in marketable securities and short-term investments.

RATIO OF EARNINGS FROM CONTINUING OPERATIONS TO FIXED CHARGES

Our ratio of earnings from continuing operations to fixed charges for each of the periods indicated is as follows:

	Year Ended December 31,				
	1999	1998	1997	1996	1995
Ratio of Earnings from Continuing Operations to Fixed Charges	16.1	14.2	12.2	7.4	6.6

The ratio of earnings from continuing operations to fixed charges represents our historical ratio and is calculated on a consolidated basis. This ratio is calculated as follows:

income from continuing operations before taxes	+	fixed charges excluding capitalized interest and preferred stock dividends
<hr/>		
fixed charges		

Fixed charges include interest from continuing operations for all years presented and beginning in 1996, preferred stock dividends.

DESCRIPTION OF DEBT SECURITIES

We may offer and issue our debt securities from time to time in one or more series. The debt securities are to be issued under an indenture dated February 1, 1991, between us and Citibank, N.A. The indenture does not limit the aggregate principal amount of the debt securities that may be issued under the indenture. The form of the indenture is filed as an exhibit to the registration statement. The indenture incorporates our standard multiple-series indenture provisions, a copy of which is filed as an exhibit to the registration statement. The indenture is subject to and governed by the Trust Indenture Act of 1939. We may enter into one or more additional indentures providing for the issuance of debt securities with one or more banking institutions organized under the laws of the United States of America, any state thereof or such foreign jurisdictions as may be permitted under the Trust Indenture Act, to serve as trustee. The statements made under this heading relating to the debt securities and the indenture are summaries and are not complete. For more complete information, you can review the indenture.

We will describe in an accompanying supplement to this prospectus the particular terms of the debt securities, any modifications of or additions to the general terms of the debt securities and any applicable federal income tax considerations. Accordingly, for a complete description of the terms of the debt securities being offered, please read both the prospectus supplement and the description of debt securities included in this prospectus.

General

The debt securities will be unsecured general obligations of our company. The indebtedness represented by the debt securities will rank equal to all other unsecured and unsubordinated indebtedness of our company. The debt securities may be issued in one or more series. Also, a single series may be issued at various times with different maturity rates and different interest rates. One or more series of debt securities may be issued with the same or various maturities at par or at a discount. Debt securities bearing no interest or interest at a rate which at the time of issuance is below the market rate (“original issue discount securities”) will be sold at a discount below their stated principal amount. This discount may be substantial. We will provide information regarding federal income tax consequences and other special considerations applicable to any original issue discount securities in an applicable prospectus supplement.

If we denominate the purchase price of any of the debt securities in a foreign currency or currencies or a foreign currency unit or units, or if the principal, premium, or interest, on any series of debt securities is payable in a foreign currency or currencies or a foreign currency unit or units, we will include in the applicable prospectus supplement information on the restrictions, elections, tax considerations, specific terms and other information with respect to that issue of debt securities and the foreign currency or currencies or foreign currency unit or units.

A prospectus supplement relating to a series of debt securities will include the specific terms relating to the offering. These terms will include some or all of the following:

- the title;
- the aggregate principal amount;
- the price or prices at which the debt securities will be sold;
- any limit on the aggregate principal amount of a particular series;
- the date or dates on which or periods during which the debt securities may be issued;
- the date or dates on which the principal of, and premium, if any, is payable or the method of determining the date or dates;
- the method by which principal of, and premium, if any, will be determined;
- if interest bearing:
 - the interest rate;
 - the method by which the interest rate will be determined;
 - the date from which interest will accrue;
 - interest payment dates; and
 - the regular record date for the interest payable on any interest payment date;
- the place or places where the principal of, premium, if any, and interest, if any, shall be payable;
- if the series of debt securities may be redeemed in whole or in part, at our option, the period or periods within which, the price or prices at which and the terms and conditions upon which we may redeem the securities;
- the denominations, if other than \$1,000, in which any registered securities of the series shall be issuable;
- the denominations, if other than \$5,000, in which any bearer securities of the series shall be issuable;

Table of Contents

- if issued as original issue discount securities:
 - the amount of discount; and
 - federal income tax consequences and other special considerations applicable to original issue discount securities;
- whether the securities will be issued as registered securities or bearer securities or both, and, if bearer securities are issued:
 - whether such bearer securities are also to be issued as registered securities; and
 - the manner in which the bearer securities are to be dated;
- provisions for payment of additional amounts, if any, and whether we will have the option to redeem the debt securities rather than pay the additional amounts and the terms of that option;
- the index, if any, used to determine the amount of principal of, premium, if any, or interest, if any;
- if denominated or payable in a foreign currency:
 - the currency or currencies of denomination;
 - the designation of the currency, currencies or currency unit in which payment of principal of, premium, if any, and interest, if any, will be made; and
 - the designation of the original currency determination agent, if any;
- whether we will use a global security, the name of the depository for the global security and, if the debt securities are issuable only as registered securities, the terms, if any, upon which interests in the global security may be exchanged for definitive debt securities;
- the extent to which, or the manner in which, any interest payable on a security in temporary global form on an interest payment date will be paid and the extent to which, or the manner in which, any interest payable on a security in permanent global form on an interest payment date will be paid;
- if less than the principal amount thereof, the portion of the principal amount of the debt securities payable upon declaration of acceleration of their maturity;
- the provisions, if any, relating to the cancellation and satisfaction of the indenture or certain covenants of the indenture prior to the maturity of the debt securities;
- any deletions, modifications of or additions to the events of default in the indenture; and
- any other terms or conditions not specified in the indenture. Any such other terms must not conflict with the requirements of the Trust Indenture Act and the provisions of the indenture and must not adversely affect the rights of the holders of any other series of debt securities then outstanding.

We may authorize the issuance and provide for the terms of a series of debt securities pursuant to a resolution of our board of directors or any duly authorized committee of our board of directors or pursuant to a supplemental indenture. All of the debt securities of a series need not be issued at the same time, and may vary as to interest rate, maturity and date from which interest shall accrue. Unless otherwise provided, a series may be reopened for issuance of additional debt securities of such series.

We may issue the debt securities as registered securities, bearer securities, or both. We may issue the debt securities in whole or in part in the form of one or more global securities. One or more global securities will be issued in a denomination or aggregate denominations equal to the aggregate principal amount of outstanding debt securities of the series to be represented by such global security or global securities. The prospectus supplement relating to a series of debt securities denominated in a foreign currency or currency unit will specify the denomination thereof.

[Table of Contents](#)

If we issue bearer securities, we will describe the limitations on the issuance of the bearer securities as well as certain federal income tax consequences and other special considerations applicable to bearer securities in an applicable prospectus supplement.

Exchange, Registration and Transfer

A holder of debt securities in bearer form may, upon written request in accordance with the terms of the applicable indenture, exchange the bearer securities for (1) registered securities (with all unmatured coupons, except as provided below) of any series, with the same interest rate and maturity date (if the debt securities of such series are to be issued as registered securities) or (2) bearer securities (if bearer securities of such series are to be issued in more than one denomination) of the same series with the same interest rate and maturity date. However, no bearer security will be delivered in or to the United States, and registered securities of any series (other than a global security, except as set forth below) will be exchangeable into an equal aggregate principal amount of registered securities of the same series (with the same interest rate and maturity date) of different authorized denominations. If a holder surrenders bearer securities between a record date and the relevant interest payment date, such holder will not be required to surrender the coupon relating to such interest payment date. Registered securities may not be exchanged for bearer securities.

Bearer or registered securities may be presented for exchange, and registered securities, other than a global security, may be presented for transfer, at the office of any transfer agent or at the office of the security registrar, without service charge and upon payment of any taxes and other governmental charges as described in the applicable indenture. The transfer or exchange will be completed upon the transfer agent or the security registrar's satisfaction with the documents of title and identity of the person making the request. Bearer securities, and the coupons, if any, relating to the bearer securities, shall be transferred by delivery of the bearer securities.

Global Securities

We may issue debt securities of a series in whole or in part in the form of one or more global securities. The global securities will be deposited with, or on behalf of, the depositary named in the applicable prospectus supplement. Global securities may be issued in either registered or bearer form. Global securities may be issued in either temporary or permanent form. Unless and until the global security is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred except as a whole by the depositary for such global security. If transferred in whole, the following are types of transfers which are allowed for global securities:

- the depositary may transfer the global security to a nominee of that depositary; or
- a nominee of the depositary may transfer the global security to the depositary or another nominee of that depositary; or
- the depositary or any nominee of that depositary may transfer the global security to a successor depositary or a nominee of that successor depositary.

The specific terms of the depositary arrangement with respect to any debt securities of a series will be described in the applicable prospectus supplement. We anticipate that the following provisions will apply to all depositary arrangements.

Upon the issuance of a global security, the depositary for such global security will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by the global security to the accounts of participant institutions that have accounts with the depositary. We or the underwriters, if the debt securities were sold by underwriters, shall designate the accounts to be credited. We will limit ownership of beneficial interests in a global security to participants or persons that may hold interests through participants. We will show ownership of beneficial interests in the global security on records maintained by the depositary. The transfer of the ownership of the global security will be effected only through the records maintained by the depositary. The laws of some states require that certain purchasers of debt

Table of Contents

securities take physical delivery of such debt securities in definitive form. These laws may impair your ability to transfer beneficial interests in a global security.

So long as the depository for a global security, or its nominee, is the owner of the global security, that depository or nominee will be considered the sole owner or holder of the debt securities represented by such global security for all purposes under the applicable indenture. Except as set forth below, owners of beneficial interests in a global security (1) will not be entitled to have debt securities of the series represented by the global security registered in their names, (2) will not receive or be entitled to receive physical delivery of debt securities of the series in definitive form, and (3) will not be considered the owners or holders thereof under the indenture governing the debt securities.

Subject to certain limitations on the issuance of bearer securities which will be described in the applicable prospectus supplement, payments of principal of, premium, if any, and interest, if any, on debt securities registered in the name of or held by a depository or its nominee will be made to the depository or its nominee, as the registered owner or the holder of the global security representing those debt securities. None of us, the applicable trustee, any paying agent or the applicable security registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global security for the debt securities or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

We expect that the depository for debt securities of a series, upon receipt of any payment of principal, premium, if any, or interest, if any, in respect of a permanent global security, will credit immediately participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in the global security held through the participants will be governed by standing instructions and customary practices, as is now the case with debt securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of those participants. There may be restrictions on receipt by owners of beneficial interests in a temporary global security of payments in respect of such temporary global security. We will describe any such restrictions in the applicable prospectus supplement.

If a depository for debt securities of a series is at any time unwilling or unable to continue as depository and we do not appoint a successor depository within ninety days, we will issue debt securities of that series in definitive form in exchange for the global security or securities representing the debt securities of that series. In addition, we may at any time and in our sole discretion determine not to have any debt securities of a series represented by one or more global securities. If we decide not to have any debt securities of a series represented by a global security, we will issue debt securities of that series in definitive form in exchange for the global security or securities representing such debt securities. Further, if we so provide with respect to the debt securities of a series, each person specified by the depository of the global security representing debt securities of such series may, on terms acceptable to us and the depository for such global security, receive debt securities of such series in definitive form. In any such instance, each person so specified by the depository of the global security will be entitled to physical delivery in definitive form of debt securities of the series represented by the global security equal in principal amount to the person's beneficial interest in the global security. Debt securities of that series so issued in definitive form will be issued (1) as registered securities if the debt securities of that series are to be issued as registered securities, (2) as bearer securities if the debt securities of that series are to be issued as bearer securities or (3) as either registered securities or bearer securities, if the debt securities of that series are to be issued in either form. A description of certain restrictions on the issuance of a bearer security in definitive form in exchange for an interest in a global security will be contained in the applicable prospectus supplement.

Payment and Paying Agents

Bearer Securities

We will pay principal, interest and premium, if any, on bearer securities in the currency or currency unit designated in the prospectus supplement, subject to any applicable laws and regulations, at such paying

Table of Contents

agencies outside the United States as we may appoint from time to time. At the option of a holder, we will make such payment by a check in the designated currency or currency unit or by transfer to an account in the designated currency or currency unit maintained by the payee with a bank located outside the United States. We will make no payment with respect to any bearer security

- at the principal corporate trust office of the trustee or any other paying agency maintained by us in the United States by transfer to an account with a bank located in the United States, or
- by check mailed to an address in the United States.

However, we may pay principal, interest, and premium, if any, on bearer securities in U.S. dollars at the principal corporate trust office of the trustee in the Borough of Manhattan, The City of New York, if payment of the full amount thereof at all paying agencies outside the United States is illegal or effectively precluded by exchange controls or other similar restrictions.

Registered Securities

Unless otherwise set forth in the applicable prospectus supplement,

- we will pay principal and premium, if any, on registered securities in the designated currency or currency unit against surrender of such registered securities at the principal corporate trust office of the trustee in the Borough of Manhattan, The City of New York,
- we will pay any installment of interest on registered securities to the person in whose name the registered security is registered at the close of business on the regular record date for such interest, and
- we will pay any installment of interest (1) at the principal corporate trust office of the trustee in the Borough of Manhattan, The City of New York, or (2) by a check in the designated currency or currency unit mailed to each holder of a registered security at such holder's registered address.

We will name in the prospectus supplement the paying agents outside the United States initially appointed by us for a series of debt securities. We may terminate the appointment of any of the paying agents from time to time, except that we will maintain at least one paying agent in the Borough of Manhattan, The City of New York, for payments with respect to registered securities. We will also maintain at least one paying agent in a city in Europe so long as any bearer securities are outstanding where bearer securities may be presented for payment and may be surrendered for exchange. However, so long as any series of debt securities is listed on The International Stock Exchange of the United Kingdom and the Republic of Ireland or the Luxembourg Stock Exchange or any other stock exchange located outside the United States and such stock exchange shall so require, we will maintain a paying agent in London or Luxembourg or any other required city located outside the United States, for those series of debt securities.

All moneys we pay to a paying agent for the payment of principal of, premium, or interest on any security that remain unclaimed at the end of two years after such principal, premium or interest shall have become due and payable will be repaid to us and the holder of such security entitled to receive such payment will thereafter look only to us for payment thereof.

Concerning the Trustee

The trustee shall, prior to the occurrence of any event of default with respect to the debt securities of any series and after the curing or waiving of all events of default with respect to such series which have occurred, perform only such duties as are specifically set forth in such indenture. During the existence of any event of default with respect to the debt securities of any series, the trustee shall exercise such of the rights and powers vested in it under the indenture with respect to such series and use the same degree of care and skill in their exercise as a prudent person would exercise or use under the circumstances in the conduct of his or her own affairs.

Table of Contents

The trustee may acquire and hold debt securities and, subject to certain conditions, otherwise deal with us as if it were not trustee under the indenture.

We have lines of credit from the trustee.

Modification of the Indenture

The indenture contains provisions permitting us and the trustee, without the consent of the holders of the debt securities, to establish, among other things, the form and terms of any series of debt securities issuable under the indenture by one or more supplemental indentures, to (1) add covenants and (2) to provide for security for the debt securities.

With the consent of the holders of not less than a majority of the aggregate principal amount of the debt securities of any series at the time outstanding, we and the trustee may execute supplemental indentures adding any provisions to or changing in any manner or eliminating any of the provisions of the indenture or of any supplemental indenture with respect to debt securities of such series or modifying in any manner the rights of the holders of the debt securities of such series.

However, without the consent of the holder of each security so affected, we and the trustee may not (1) extend the fixed maturity, or the earlier optional date of maturity, if any, of any security of a particular series, (2) reduce the principal amount of any security of a particular series, (3) reduce the premium of any security of a particular series, if any, (4) reduce the rate or extend the time of payment of interest, if any, of any security of a particular series, or (5) make the principal thereof or premium, if any, or interest, if any, of any security of a particular series payable in any currency or currency unit other than as provided pursuant to the indenture or in the debt securities of such series.

Also, without the consent of the holders of all debt securities of such series outstanding thereunder, we and the trustee may not reduce the percentage of debt securities of any series, the holders of which are required to consent to any such supplemental indenture.

Certain Covenants of Debt Securities

The indenture contains, among other things, the following covenants:

Limitation on Liens. We will not, and will not permit any of our subsidiaries to, create, assume, allow to exist or allow to be created or assumed any lien on restricted property to secure any of our debts, any debt of any of our subsidiaries or any debt of any other person unless we also secure the debt securities of any series having the benefit of this covenant by a lien equally and ratably with such other debt for so long as such other debt shall be so secured. The indenture contains the following exceptions to that prohibition:

- (1) liens on property of corporations existing when the corporation becomes a subsidiary;
- (2) liens on property of corporations existing on the date of the applicable indenture;
- (3) liens existing on property when the property was acquired or incurred to finance the purchase price, construction or improvement of the property;
- (4) certain liens in favor of or required by contracts with governmental entities; and
- (5) any lien that would not otherwise be permitted by clauses (1) through (4) above, inclusive; *provided* that after giving effect to the lien, the sum of, without duplication,
 - the aggregate outstanding principal amount of debt secured by such liens otherwise prohibited by the indenture; and
 - the aggregate amount of all attributable debt with respect to outstanding sale and leaseback transactions otherwise prohibited by the indenture

does not exceed 15% of our consolidated net tangible assets.

Table of Contents

Limitation on Sale and Leaseback Transactions. We will not, and will not permit any of our subsidiaries to, enter into any sale and leaseback transaction on any restricted property unless:

- (1) our company or such subsidiary could incur a lien on such restricted property securing debt in an amount equal to the value of such sale and leaseback transaction under the covenant described in “— Limitation on Liens” above without equally and ratably securing the debt securities; or
- (2) we apply, during the six months following the effective date of the sale and leaseback transaction, an amount equal to the value of the sale and leaseback transaction to the voluntary retirement of long-term indebtedness or to the acquisition of restricted property.

Definitions of Certain Terms

The following are the meanings of terms that are important in understanding the covenants previously described and the covenants described below:

- “consolidated net tangible assets” means the total assets less current liabilities and intangible assets;
- “restricted property” means
 - any manufacturing facility (or portion thereof) owned or leased by us or any of our subsidiaries and located within the continental United States which, in the opinion of the board of directors, is of material importance to our business and our subsidiaries taken as a whole, but no such manufacturing facility, or portion thereof, shall be deemed of material importance if its gross book value, before deducting accumulated depreciation, is less than 2% of our consolidated net tangible assets; or
 - any shares of capital stock or indebtedness of any subsidiary owning any such manufacturing facility.
- “sale and leaseback transaction” means any arrangement with any person providing for the leasing by us or any subsidiary of any restricted property which has been or is to be sold or transferred by us or such subsidiary to such person. However, “sale and leaseback transactions” shall not include (1) temporary leases for a term, including renewals at the option of the lessee of not more than three years, (2) leases between us and a subsidiary or between subsidiaries, (3) leases of a restricted property executed by the time of, or within 12 months after the latest of, the acquisition, the completion of construction or improvement, or the commencement of commercial operation of the restricted property, and (4) arrangements pursuant to any provision of law with an effect similar to the former Section 168(f)(3) of the Internal Revenue Code of 1954.
- “subsidiary” means any corporation more than 50% of the voting stock of which shall at the time be owned by us or by one or more subsidiaries or by us and one or more subsidiaries, but shall not include any corporation of which we and/or one or more subsidiaries owns directly or indirectly less than 50% of the outstanding stock of all classes having ordinary voting power for the election of directors but more than 50% of the outstanding shares of stock of a class having by its terms ordinary voting power as a class to elect a majority of the board of directors of such corporation.

Because the covenants described above cover only manufacturing facilities in the continental United States, our manufacturing facilities in Puerto Rico are excluded from the operation of the covenants described above.

There are no other restrictive covenants contained in the indenture. The indenture does not contain any provision which will restrict us from incurring, assuming or becoming liable with respect to any indebtedness or other obligations, whether secured or unsecured, or from paying dividends or making other distributions on our capital stock or purchasing or redeeming our capital stock. The indenture does not contain any financial ratios, or specified levels of net worth or liquidity to which we must adhere. In addition, the indenture does not contain any provision which would require that we repurchase or redeem or otherwise modify the terms of any of our debt securities upon a change in control or other events involving us which may adversely affect the creditworthiness of the debt securities.

Events of Default

The indenture provides that with respect to any series of debt securities, an event of default includes:

- failure to pay interest when due on the debt securities of such series outstanding thereunder, continued for 30 days,
- failure to pay principal or premium, if any, when due (whether at maturity, declaration or otherwise) on the debt securities of such series outstanding thereunder,
- failure to observe or perform any of our covenants in the indenture or the debt securities of such series (other than a covenant included in the indenture or the debt securities solely for the benefit of a series of debt securities other than such series), continued for 60 days after written notice from the trustee or the holders of 25% or more in aggregate principal amount, of debt securities of such series outstanding thereunder,
- certain events of bankruptcy, insolvency or reorganization, and
- any other event of default as may be specified for such series.

The indenture provides that if an event of default with respect to any series of debt securities at the time outstanding occurs and is continuing, either the trustee or the holders of 25% or more in aggregate principal amount of debt securities of such series outstanding may declare the principal amount of all debt securities of such series to be due and payable immediately. However, if all defaults with respect to the debt securities of such series (other than non-payment of accelerated principal) are cured and there has been no sale of property under any judgment or decree for the payment of moneys due, the holders of a majority in aggregate principal amount of the debt securities of such series outstanding may waive the default and rescind the declaration and its consequences.

The indenture provides that the holders of a majority in aggregate principal amount of the debt securities of any series outstanding under the indenture may, subject to certain exceptions, direct the trustee as to the time, method and place of conducting any proceeding for any remedy available to the trustee, or exercising any power or trust conferred upon the trustee. The trustee may on behalf of all holders of debt securities of such series waive any past default and its consequences with respect to debt securities of such series, except a default in the payment of the principal of, premium, if any, or interest, if any, on any of the debt securities of such series.

Holders of any security of any series may not institute any proceeding to enforce the indenture unless the trustee shall have refused or neglected to act for 60 days after a request and offer of satisfactory indemnity by the holders of 25% or more in aggregate principal amount of the debt securities of such series outstanding. However, the right of any holder of any security of any series to enforce payment of the principal of premium, if any, or interest, if any, on his debt securities when due shall not be impaired without the consent of such holder.

The trustee is required to give the holders of any security of any series notice of default with respect to such series known to it within 90 days after the happening of the default, unless cured before the giving of such notice. However, except for defaults in payments of the principal of, premium, if any, or interest, if any, on the debt securities of such series, the trustee may withhold notice if and so long as it determines in good faith that the withholding of such notice is in the interests of the holders of the debt securities of such series.

We are required to deliver to the trustee each year an officers' certificate stating whether such officers have obtained knowledge of any default by our company in the performance of certain covenants and, if so, specifying the nature of such default.

Merger or Consolidation

The indenture provides that without the consent of the holders of any of the outstanding debt securities under the indenture, we may consolidate with or merge into, or transfer or lease substantially all of our assets to, any domestic corporation or we may permit any domestic corporation to consolidate with or merge into us or convey, transfer or lease substantially all of its assets to us provided:

- the successor corporation assume our obligations under the indenture;
- after giving effect to such transaction, our company or the successor corporation would not be in default under the indenture; and
- that certain other conditions described in the indenture are met.

Discharge, Legal Defeasance and Covenant Defeasance

At our option, we may be discharged, subject to certain terms and conditions, from any and all obligations in respect of the debt securities of any series (except for certain obligations to register the transfer and exchange of debt securities, replace stolen, lost or mutilated debt securities and coupons, maintain paying agencies and hold moneys for payment in trust) or need not comply with certain restrictive covenants of the indenture if:

- (1) we have deposited with the trustee, in trust, money, and in the case of debt securities and coupons denominated in U.S. dollars, U.S. government obligations or, in the case of debt securities and coupons denominated in a foreign currency, foreign currency government securities, which through the payment of interest thereon and principal thereof in accordance with their terms will provide money or a combination of money, and U.S. government securities, in an amount sufficient to pay in the currency in which the debt securities are payable all the principal of, and interest on the debt securities on the date such payments are due in accordance with the debt securities; and
- (2) we have delivered to the trustee an opinion of independent counsel of recognized standing or a ruling of the IRS to the effect that such deposit and discharge will not cause the holders of the debt securities of such series to recognize income, gain or loss for federal income tax purposes.

Governing Law

The indenture and the debt securities for all purposes will be governed by and construed in accordance with the laws of the State of New York.

PLAN OF DISTRIBUTION

We may sell the debt securities in four ways: (1) to or through underwriters; (2) to or through dealers; (3) through agents; and (4) directly or through our subsidiaries to purchasers.

We may distribute debt securities from time to time in one or more transactions at (1) a fixed price or prices, which may be changed, (2) at market prices prevailing at the time of sale, (3) at prices related to such market prices or (4) at negotiated prices.

If underwriters are used in the offering of debt securities, the names of the managing underwriter or underwriters and any other underwriters, and the terms of the transaction, including compensation of the underwriters and dealers, if any, will be set forth in the applicable prospectus supplement. Only underwriters named in a prospectus supplement will be deemed to be underwriters in connection with the debt securities described in that prospectus supplement. Firms not so named will have no direct or indirect participation in the underwriting of such debt securities, although such a firm may participate in the distribution of those debt securities under circumstances entitling that firm to a dealer's commission. It is anticipated that any underwriting agreement pertaining to any debt securities will (i) entitle the underwriters to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution for payments which the underwriters may be required to make in respect thereof, (ii) provide that the obligations of the

Table of Contents

underwriters will be subject to certain conditions precedent, and (iii) provide that the underwriters generally will be obligated to purchase all debt securities if any are purchased.

We also may sell debt securities to a dealer as principal. If we sell debt securities to a dealer as a principal, then the dealer may resell those debt securities to the public at varying prices to be determined by such dealer at the time of resale. The name of the dealer and the terms of the transactions will be set forth in the applicable prospectus supplement.

Debt securities also may be offered through agents we may designate from time to time. The applicable prospectus supplement will contain the name of any such agent and the terms of its agency. Unless otherwise indicated in the prospectus supplement, any such agent will act on a best efforts basis for the period of its appointment.

As one of the means of direct issuance of the debt securities, we may utilize the services of any available electronic auction system to conduct an electronic "dutch auction" of the debt securities among potential purchasers who are eligible to participate in the auction of such debt securities, if so described in the prospectus supplement.

Dealers and agents named in a prospectus supplement may be deemed to be underwriters (within the meaning of the Securities Act) of the debt securities described in the prospectus supplement and, under agreements which may be entered into with us, may be entitled to indemnification by us against certain civil liabilities, including liabilities under the Securities Act, or to contribution for payments which they may be required to make in respect of those liabilities. Underwriters, dealers and agents may engage in transactions with us, or perform services for us in the ordinary course of business.

In connection with the original issuance of debt securities issued as bearer securities, in order to meet the requirements set forth in U.S. Treasury Regulation Section 1.163-5(c)(2)(i)(D), each underwriter, dealer and agent will agree to certain restrictions in connection with the original issuance of such debt securities. Such restrictions will be described in the applicable prospectus supplement.

Offers to purchase debt securities may be solicited directly by us or through our subsidiaries and sales thereof may be made by us directly to institutional investors or others. The terms of any such sales will be described in the applicable prospectus supplement.

LEGAL MATTERS

The legality of the debt securities will be passed upon for us by Dewey Ballantine LLP, New York, New York, and for any underwriters by counsel as may be specified in applicable prospectus supplements. In rendering such opinion, Dewey Ballantine LLP will be relying as to matters of Indiana law upon the opinion of James B. Lootens, Esq., our Assistant Secretary and Associate General Counsel.

EXPERTS

Ernst & Young LLP, independent auditors, have audited our consolidated financial statements included in our annual report on Form 10-K for the year ended December 31, 1999, as set forth in their report, which is incorporated by reference in this prospectus and elsewhere in the registration statement. Our financial statements are incorporated by reference in reliance on Ernst & Young LLP's report, given on their authority as experts in accounting and auditing.
