Lilly Announces Webcast to Discuss Oncology Pipeline

INDIANAPOLIS, May 2, 2017 /PRNewswire/ -- Eli Lilly and Company (NYSE: LLY) will conduct a webcast on Saturday, June 3, 2017, to discuss the company's oncology pipeline, including data from the MONARCH 2 study of abemaciclib in patients with hormone-receptor-positive (HR+), human epidermal growth factor receptor 2-negative (HER2-) advanced breast cancer, which will be presented at the American Society of Clinical Oncology (ASCO) Annual Meeting. The webcast will begin at 7 p.m. Eastern/6 p.m. Central Time.

Investors, media and the general public can access a live webcast of the conference call through a link that will be posted on Lilly's website at <https://investor.lilly.com/events.cfm>. A replay will also be available on the website following the conference call.

About Eli Lilly and Company

Lilly is a global healthcare leader that unites caring with discovery to make life better for people around the world. We were founded more than a century ago by a man committed to creating high-quality medicines that meet real needs, and today we remain true to that mission in all our work. Across the globe, Lilly employees work to discover and bring life-changing medicines to those who need them, improve the understanding and management of disease, and give back to communities through philanthropy and volunteerism.
