Third-Quarter Reported Results

In Q3 2025, worldwide revenue was \$17.60 billion, an increase of 54% compared with Q3 2024, driven by a 62% increase in volume, partially offset by a 10% decrease due to lower realized prices. Key Products¹ revenue grew to \$11.98 billion in Q3 2025, led by Mounjaro and Zepbound.

Revenue in the U.S. increased 45% to \$11.30 billion, driven by a 60% increase in volume, partially offset by a 15% decrease due to lower realized prices. Price was negatively impacted by a favorable one-time adjustment to estimates for rebates and discounts in Q3 2024. Excluding this base period effect, U.S. price declined by high single digits.

Revenue outside the U.S. increased 74% to \$6.30 billion, driven by a 66% increase in volume and to a lesser extent a 6% favorable impact on foreign exchange rates. The volume increase outside the U.S. was driven primarily by Mounjaro. Revenue included a \$200.0 million sales-based milestone payment for Jardiance and \$180.0 million of revenue associated with the divestiture of the rights to Cialis in select markets outside of the U.S.

¹ The Company defines Key Products as Ebgllyss, Jaypirca, Kisunla, Mounjaro, Omvoh, Verzenio, and Zepbound.

Gross margin increased 57% to \$14.59 billion in Q3 2025. Gross margin as a percent of revenue was 82.9%, an increase of 1.9 percentage points. The increase in gross margin percent was primarily driven by favorable product mix, partially offset by lower realized prices.

The Q3 2025 charges primarily related to the acquisition of SiteOne Therapeutics, Inc. The Q3 2024 charges were primarily related to the acquisition of Morphic Holding, Inc.

Asset impairment, restructuring and other special charges of \$364.9 million in Q3 2025 were primarily related to a litigation charge, as well as acquisition and integration costs associated with the closing of our acquisition of Verve Therapeutics, Inc. The effective tax rate was 22.8% in Q3 2025 compared with 38.9% in Q3 2024. The effective tax rates for Q3 2025 and Q3 2024 were both unfavorably impacted by non-deductible acquired IPR&D charges, with a larger impact occurring in Q3 2024. Additionally, the effective tax rate for Q3 2025 was unfavorably impacted by U.S. tax law changes enacted during the quarter.
